Summary

Junior Data Analyst at AT360 IT Solutions LLP with a commerce background, building Power BI dashboards and Python automations for client projects in finance, investments and retail. Skilled in SQL, Python, Excel and Power BI, turning raw data, PDFs and bank statements into clear, decision-ready reports.

Skills

Programming & Querying Language: Python (Pandas, NumPy, Matplotlib, Seaborn) & SQL (MySQL)
Data Visualization Tools: Power BI (DAX, Data Modeling), Advanced MS Excel (Pivot Tables, Power Query)
Analytical Abilities: Data Cleaning, EDA, Insight Generation, Descriptive Statistics, Dashboard Design
AI & Automation: Python PDF-to-CSV automation, ChatGPT, Claude, Claude Code, Codex, Antigravity
Currently Learning: Azure, Databricks

Work Experience

Junior Data Analyst **Jun 2026 – Present**
AT360 IT Solutions LLP *Kolkata, West Bengal*

Restaurant Sales Performance Report | *Python, Power BI, DAX*
- **Wrote Python scripts converting daily sales PDFs into structured CSV data**, with automated extraction.
- Built a Power BI report with DAX measures for revenue, guests and spend per guest vs. last year, by outlet.

Investment Portfolio Dashboard Suite | *Power BI, DAX, Data Modeling*
- **Built 12+ Power BI dashboards** tracking a family's direct equity and mutual fund holdings.
- Designed the data model and DAX measures for total cost, market value, profit & loss and YTD / MTD returns.

Finance Cost Dashboard Suite (Steel Manufacturer) | *Power BI, Python, Excel*
- **Built the Debtors, Creditors and Supplier Credit Finance dashboards** in a five-report finance cost suite.
- Automated invoice, PDF and bank statement extraction into Excel with AI-assisted Python; maintain the live reports.

Training Projects

Credit Card User Behaviors Analysis | *SQL, Excel*
- **Analyzed 10,128 customer records** with SQL (aggregation, CASE, grouping) to study churn patterns.
- Found 18–20% churn among mid-tenure (20–49 months) inactive customers, supporting proactive retention.

Diwali Sales Performance Analysis | *Python*
- **Cleaned 11,250 records** and built 9 bar charts highlighting top buyer segments by age, region and industry.
- Identified married women aged 26–35 in UP, Maharashtra and Karnataka (IT, Healthcare, Electronics) as top buyers.

Car Sales Performance Dashboard | *Microsoft Power BI*
- **Built a Power BI dashboard on 23,907 sales records** with 3 KPIs, 4 charts and drill-down slicers.
- Showed White cars leading sales with $174.5M (47%), delivering actionable insights.

HR Attrition Dashboard | *Microsoft Excel*
- **Analyzed 2,926 employee records** in Excel dashboards built with Power Query, pivots, charts and slicers.
- Identified 492 exits, mainly low performers (84%) in R&D and Sales; highest among males (73%) aged 26–35.

Certifications

- **Data Analyst Masters Program – Simplilearn (Aug. 2024 – Jul. 2025):** 6 industry projects.
- **Simplilearn courses (2024–25):** PL-300 Power BI, SQL, Python for Data Analytics, Business Analytics with Excel.
- **Career Essentials in Data Analysis – Microsoft and LinkedIn (Oct. 2024)**
- **Data Visualisation Job Simulation – Tata, Forage (Oct. 2024)**

Education

Online MBA **2025 – 2027 (Pursuing)**
Lovely Professional University (LPU)

B.Com (Accounting and Finance) **Graduated: 2024-25**
Burdwan Raj College, The University of Burdwan *CGPA: 7.2 / 10*
